

MELODY

Changing the way you think about water
 Cutting edge technology
 One touch operation
 Elegant design
 Biostone

Features

- Smart Water Ionizing controlled automatically by the Micom onboard computer
- Calcium may be added through an exterior opening, extending the range of pH selection
- Flux control and on-off valve on the device body, rendering exterior valve unnecessary
- Has a high quality filter which removes most pollutants and microorganisms
- Reduced mineral deposits by use of platinum titanium coated electrodes
- An alarm sounds and the ionizer is disabled in case of hot water inflow
- Exact calculation of filter life with flux control
- Extended range of pH selection and control
- Alarm signal in case of low water pressure
- Automatic flow reversal cleaning system
- Silver coated active carbon filtration
- Optional hollow filter membrane
- Easy Filter Replacement
- Durable construction

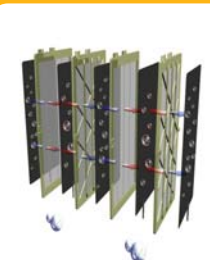

Automatic Electrode Cleaning

Patented

We realize it is inconvenient to not be able to use your water ionizer while in its clean cycle. Our new patented reversible chamber allows for an automatic water flow regulation so that you can always enjoy alkaline water even while your ionizer is cleaning

Platinum Titanium Electrolytic Cell

Emco Tech water ionizers create healthy, clean, ionized, alkaline water from tap water. Alkaline, ionized water helps to restore your internal pH balance and remove toxic acid waste from the body.
